

► VERTICAL SWING DOOR

EXAMPLES OF USE: BENETEAU SENSE 43 - 46

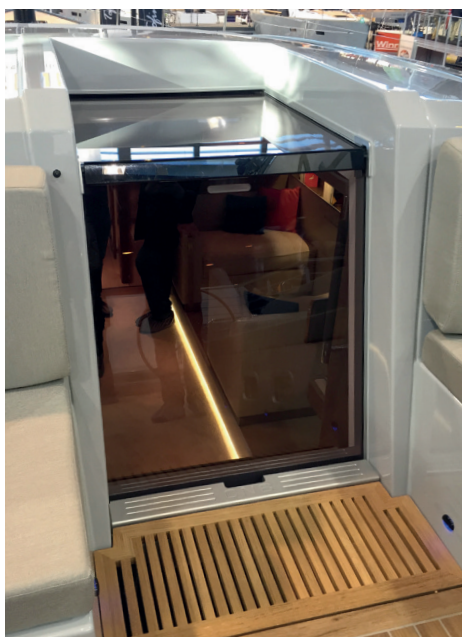

Credit: Noval

- ✓ This manually operated system has 2 sets of doors each in 2 formats. This optimizes the size of the door once opened.
- ✓ The horizontal sliding panel slides independently of the position of the door.

► COMPANIONWAY WITH VERTICAL SLIDING DOOR

EXAMPLES OF USE: BENETEAU OCEANIS 58 - 60, CNB 66 - 77, LAGOON 65 - 67 - 77 - 78

Credit: Noval

- ✓ This model of companionway allows the door to slide under the cockpit floor. The top horizontal sliding panel slides back and forth.
- ✓ This system can be:
 - fully motorized.
 - partially motorized.
 - (vertical door or horizontal panel).
 - fully manual.
- ✓ For all three versions, the lock is electric.
- ✓ For the motorized versions, it is possible to manually override the system to release the door in the event of an electrical failure on board.
