B: Number of traverse bars	6	3
C: Overall width (mm)	2180	2200
D: Overall length (mm)	1750	3555

For other dimensions, please contact us.

► RECOMMENDATIONS

- ✓ For watertightness, we recommend Stamoid canvas assembled by high frequency welding because stitching cannot guarantee watertight properties (due to thread holes).
- ✓ If you would like a roof lining, we recommend this in canvas for its flexibility.
- ✓ A roof lining canvas can be provided on request.
- ✓ Polyester parts can be supplied on request (front sliding part and motor bonnet).

► ELECTRICAL WIRING
